

ENVIRONMENTAL POLICY

Policy Statement

The Management and Staff at Future Engineering are committed to ensuring our processes have a minimal negative impact on the environment at all times. We will operate in compliance with all relevant environmental legislation and use pollution prevention and environmental best practices in all we do.

Environmental Objectives

The Management and staff at Future Engineering are committed and will strive to:

- Provide a workplace which does not damage or have a negative impact on the environment*
- Purchase environmentally friendly resources within our business*
- Promote efficient use of materials and resources throughout our processes*

To assist in achieving these objectives we will:

- Train, educate and communicate with employee's, contractors, customers, visitors and other interested parties regarding this policy and the expectations towards environmental protection in the workplace*
- Establish measurable objectives and targets aimed at protection of the environment*
- Conduct environmental audits as part of the company's Continual Improvement Process*
- Ensure this policy remains documented, implemented and communicated to employees and other interested parties*
- Periodically review this policy*
- Establish and implement a robust management review schedule to address significant environmental aspects and opportunities for improvement*
- Ensure this policy remains documented, implemented and communicated to employees and other interested parties*
- Continually improve our Environmental Management System*
- Apply Risk Based Thinking within our systems, operations and processes*
- Compliance to environmental statutory, regulatory and other requirements*
- Promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner*
- Develop and maintain environmental emergency response procedures*
- Ensure our Environmental Management System is conformant and certified to ISO 14001 2015*
