

OCCUPATIONAL HEALTH & SAFETY POLICY

Policy Statement

The Management and Staff at Future Engineering are committed to ensuring the safety, health and welfare of all employees, contractors, clients and visitors on our work sites. Management recognises its moral and legal responsibilities under occupational safety and health legislation to provide a safe and healthy work environment for all.

Occupational Health & Safety Objectives

The Management at Future Engineering is committed and will strive to:

- Prevent and eliminate work related injuries and illnesses*
- Identify, assess and control workplace hazards and risks to provide a healthy and safe workplace*
- Provide training for staff in regard to occupational health & safety procedures and processes*

To assist in achieving these objectives we will:

- Train, educate and communicate with employee's, contractors, customers, visitors and other interested parties regarding this policy and the expectations towards OHS in the workplace*
- Establish measurable objectives and targets to ensure continued improvement aimed at the elimination of work-related injury and illness*
- Conduct OHS audits as part of the company's Continual Improvement Process Comply with relevant OHS legislation and other requirements*
- Periodically review this policy*
- Establish and implement a robust management review schedule to address and review OHS hazards, risks and opportunities for improvement*
- Ensure this policy remains documented, implemented and communicated to employees and other interested parties*
- Continually improve our Occupational Health & Safety Management System*
- Apply Risk Based Thinking within our systems, operations and processes*
- Compliance to OHS statutory, regulatory and other requirements*
- Provide adequate resources to aid employees in fulfilling their responsibilities*
- Report and investigate all work related incidents*
- Ensure that appropriate return to work programs are in place*
- Ensure our Occupational Health & Safety is conformant and certified to AS/NZS 4801 2001 and OSHAS 18001 2007*
